Mother Dairy launches haldi milk

New Delhi (PTI): Mother Dairy, a leading milk supplier in the Delhi-NCR, on Monday introduced butterscotch-flavoured haldi milk (turmeric latte) that the company says will help boost immunity of consumers. "Made with concentrated turmeric extract, each bottle delivers same benefit as taking one teaspoon of haldi powder in milk," Mother Dairy said in a statement. The company said it has followed the self-care guidelines and recommendations issued by the AYUSH ministry as preventive health measures for boosting immunity amid the coronavirus outbreak.
