

Mother Dairy recycles 3,233 MT of plastic waste

MUMBAI, June 4 (PTI)

A DAY before World Environment Day, 2021, Mother Dairy Fruit & Vegetable Pvt Ltd (MDFVPL), country's leading milk and milk products major, reiterated its commitment towards a cleaner environment; and announced that it has co-processed/recycled 3,233 MT of post-consumer used plastic waste till March 2021 in the state of Maharashtra.

The overall volume includes both Multi-Layered Plastic (MLP) and Single Layered Plastic (SLP) Waste.

Mother Dairy started its plastic waste collection and recycling/co-processing initiative in Maharashtra in June 2018 by rolling out the Extended Producer Responsibility (EPR) programme.
